For those who were asking about the CLIA waiver, this is a response from one of our PAIS schools which successfully received a CLIA waiver that eventually enabled them to administer testing at their school.

Our director of health services really led the charge in this, but below is the website that helped us apply and obtain our CLIA waiver.

<https://www.cms.gov/regulations-and-guidance/legislation/clia/downloads/howobtaincertificateofwaiver.pdf>

Please let me know if you have more questions. It took about 2 months for us to get the waiver. From what I remember, it wasn't too complicated to apply for it. If schools would like to speak to me or our director of health services, please tell them to reach out.

I can put anyone interested in applying for the CLIA waiver in touch with this school.
